

# Minority Professional Association Membership

The Minority Professional Association (MPA) is an initiative in Cayuga County that promotes minority professional development in the Central New York area. Its mission is to fund professional development opportunities and facilitate a network of individuals that will use their unique experiences to enrich the professional lives of other minority members of the community and inspire future minority professionals.

For an annual individual membership fee of \$50 (\$25 for students), members of the MPA will be invited to networking opportunities and can apply for funding for professional development through trainings, classes and seminars. The MPA has a goal of reaching 50 members in two years.

We are asking your business to be an original member of the MPA.
